

PCN Product Change Notification

PCN no.:
DEU-08-01-001

Product All types of ERNI connectors and housings

Date of Publication:
15.01.2008

Product: IEC61076-4-101 ERmet HM, ERmet ZD, IEC60603-2, IEC 60603-7, IEC 60603-13, IEC 60807-3 Connectors and Housings

Description of Change: Discontinuation of part number printing

Type of Change: Minor (B) change

That change does not result in an impact to form, fit, function, or reliability of the product.

Reason of Change:

Due to standardization of connector production and marking, ERNI will discontinue part number printing on connector bodies.

Implementation date:

This change will be effective starting February, 1st, 2008

Originator: G.Popp, QC, +49 7166 50 484, guenter.popp@erni.de

Valued customer,
With standardization of our product marking methods, ERNI will discontinue printing 6-digit part-numbers on our product insulation bodies.
However, we will continue to print date code, Company Name and RoHS conformity where applicable.
This change will affect all of our connectors produced to international standards

- IEC 61076-4-101 - ERmet 2mm Hard Metric**
- IEC 60603-2 - DIN 41612 Style**
- IEC 60603-7 - Modular Jacks**
- IEC 60603-13 - LPV**
- IEC 60807-3 - D-Sub**

as well as other non-standardized connectors with grey or ivory housing color.

The existing product descriptions and drawings will not be updated until there is a redesign or change of drawing index, etc.

Additional Information on request
